Powering Progress.

OVERVIEW ABOUT US

Established as a pioneering force in valve automation, SDTORK Controls Pvt. Ltd., a division of SUDE Engineering, has been delivering world-class electric actuation solutions across industries for over three decades.

Known for engineering innovation, high-quality manufacturing, and a deep understanding of mission-critical applications, we proudly serve sectors including Power, Oil & Gas, Marine, Nuclear, Water Treatment, and Defence.

With a product line engineered to perform in the most demanding environments, SDTORK actuators are installed on naval warships (e.g., INS Vikram, INS Chennai) and integrated into complex industrial systems nationwide.

Founded: 1993

OUR PRODUCT RANGE

Engineered to Perform Designed to Last.

Type: Weatherproof Quarter Turn Actuator (Single Phase)

Torque Range: Up to 200 Nm

Key USPs:

- ✔ Compact, lightweight aluminium alloy body.
- ✔ Stall-duty motor with worm gear.
- ✔ Fit & forget design.
- ✔ Ideal for ball valves, butterfly valves & dampers.
